

**RACING COMPONENTS
MADE IN GERMANY**

KOEHN GmbH is a highly specialised bicycle parts manufacturer from Germany. Since 1995 we design, develop and manufacture the RESET Racing line of bike products.

Quality at the highest level is not an option but an absolute necessity to maintain our excellent reputation. That's why we choose our materials, components and manufacturing processes with the greatest possible care to ensure that our products exceed the demands placed on them in the field.

RESET Headsets

*depends on headset type

RESET headsets set standards in durability. With high precision parts from our own manufacturing facilities in Germany, long-lasting bearings and superb sealing systems, we offer the perfect bike-handling for every type of frame.

No matter whether you are looking for a standard headset, a custom-made model for a rare frame or in need of a headtube repair – RESET has got you covered.

RESET: innovation, technology and service "Made in Germany".

Undercover**

Ahead Caps for 1 1/8" und 1.5"
Cover for RESET Headsets
1 1/8" and 1.5"

RESET MTB Pedals are very popular in downhill and enduro racing, now we present Pedal4 that performs at an equally high level in other activities, such as touring, bike-packing, urban rides, single-speed and e-bikes.

Laser-cut stainless steel sheets and high-quality aluminium parts are used to assemble the body of the Pedal4 – without a single screw. All parts are mounted on the bearing carrier with precisely dimensioned tie rods and kept in place with hollow pins. The result is a lightweight, yet very strong cage. Your choice of a titanium or stainless-steel spindles completes the durable and timeless Pedal4, which is – as always at RESET – completely serviceable.

RESET Bottom Brackets

Cranksets	
HT2	drive Ø 24mm, nondrive Ø 24mm
GXP	drive Ø 24mm, nondrive Ø 22mm
BB30	drive Ø 30mm, nondrive Ø 30mm

RESET bottom brackets are available in many different variations, which gives you freedom to ride the drivetrain of your choice. Whether you want to customize your ride with special accessories or need a bottom bracket for a rare vintage bike, our detailed documentation will help you find the right part for your frame and your crank set. Even when you have a defective bottom bracket shell, RESET has a solution for you. Just ask for our renowned repair service.

RESET components are "Made in Germany" and our products are designed for maximum durability. In case you need a spare part anyway, just contact our after-sales service, who will get you back on track.

Hollowlite

HTII-BB

BSA threads
MTB & Road
